

THE PAZNOR GROUP

Collaboration Offer

Paznor Group is a successful distributor of orthopedic, therapeutic and rehabilitative products in the Greater Ottawa Area. With Paznor's current financial capacity, distribution, administration, shipping and receiving systems, Paznor Group can bring significant value to a collaboration deal that would see Paznor Group and a Partner develop a Web Sales division.

Paznor Group's vision is to create Global Business Ventures that bring unprecedented value to the world's people with innovative business strategies. Paznor Group is consistently striving to be the best and bring more value to the marketplace for consumers. Paznor Group operates in a world of collaboration, not competition.

The Web Sales division would target individual consumers searching for orthopedic, therapeutic and rehabilitative products online. The Web Sales division will be a multi-million dollar division by 2010. For a list of the current products competitively offered, please visit:

Details of Collaboration Agreement:

Paznor Group will provide a Collaboration Agreement, which stipulates that profits will be shared at an agreed percentage between Paznor Group and the Partner. The Partner will be shielded from any of Paznor Group's liability and will also not have any rights to Paznor Group's assets or equity. For greater certainty, the parties agree and confirm that neither party shall be considered the legal partner of the other party in any respect, and the Collaboration Agreement is not to be construed as a teaming agreement, legal partnership or other similar relationship. The parties to the Collaboration Agreement are independent contractors. Under no circumstances is one party intended to be an employee of the other party, and no agency, partnership, joint venture or similar relationship is established hereby.

For any questions, concerns or comments, please feel free to contact me directly. I look forward to building a successful and profitable Web Sales division.

Sincerely,

Jean-Guy M. Francoeur
